Objective

Full Stack Developer (Fresher) with hands-on experience building responsive web applications using React, Node.js, Express, and MySQL (Prisma). Skilled in developing RESTful APIs, managing databases, and deploying applications on Vercel and Railway. Eager to apply technical skills, contribute to impactful projects, and learn modern development practices in a collaborative environment.

Technical Skills

Programming Languages: Java, JavaScript, SQL.

Frontend: HTML, CSS, Tailwind CSS, React.js, Next.js, Redux, TanStack Query,.

Backend: Node.js, Express.js, RESTful APIs.

Database & ORM: MySQL, PostgreSQL, Prisma.

Deployment: Vercel, Railway, Render.

Tools: Git, GitHub, Postman.

Experience

Software Developer Intern, Rexknar Creative Solutions

June 2025 – present

- Developed a full-stack web application using React.js, Node.js, and PostgreSQL.
- Implemented JWT authentication and dynamic API routes for secure data access.
- Designed responsive UI components using React and Tailwind CSS.

Projects

ZapRide (Ride Booking Platform)

github.com/Mency/ZapRide

- Developed a full-stack web application enabling customers to book rides and drivers to manage vehicles.
- Implemented user authentication, vehicle registration, ride booking, and dashboard features to ensure smooth interactions between drivers and customers.
- Designed and integrated RESTful APIs using Node.js and Prisma for efficient data handling.
- Deployed the application on Vercel for live access and testing.
- Tools & Technologies: Next.js, Tailwind CSS, Node.js, Prisma, MySQL (XAMPP), GitHub, Vercel.

TaskFlow (Task Management App)

github.com/Mency/TaskFlow

- Developed a dynamic and responsive to-do list application allowing users to sign up, log in, add, delete, and mark tasks as completed.
- Implemented user authentication to secure user accounts and manage personal task data.
- Built state management and interactive UI using React for seamless user experience.
- Tools & Technologies: HTML, CSS, JavaScript, React, GitHub, Vercel, Render.

Personal Portfolio (VIEW MY PORTFOLIO)

github.com/Mency/Portfolio

- Developed a fully responsive and user-friendly personal portfolio to showcase projects, skills, and contact information.
- Implemented a clean, modern, and interactive UI using Next.js and Tailwind CSS for an enhanced user experience.
- Deployed the website on Vercel to make it accessible to recruiters and potential employers.

- Tools & Technologies: Next.js, Tailwind CSS, GitHub, Vercel.

Effective Psychological Counselling Using Advanced AI Emotion Detection System

2024

- Developed a project aimed at combining face recognition with emotion detection to assist in providing effective psychological counselling.
- Designed the system to potentially adapt and improve accuracy over time using continuous learning from diverse datasets.
- Tools & Technologies: Python, OpenCV, TensorFlow, Keras, LBPH Face Recognition Library, MySQL

Education

St. Xavier's Catholic College of Engineering , BE in Computer Science

2020 - 2024

- CGPA: 8.43

Adline Matric Hr. Sec. School , Higher Secondary

2019 - 2020

- Percentage - 66%

Certificates & Courses

MERN Stack Development

Rexcoders Academy

Certificate of Paper Presentation @ICCIDA'24
